

FREE RV INSPECTION CHECKLIST

Spot problems before you sign the papers

How to use this checklist

Inspect top-to-bottom, inside and out. Mark items to repair or use them to negotiate price.

1. Exterior & Roof

- Roof: check for soft spots, cracks, missing sealant
- Sidewalls: look for delamination, bubbling, fading
- Windows/doors: seals, latches, evidence of leaks
- Awnings: extend and inspect fabric + arms

2. Interior

- Ceilings/corners: water stains or soft areas
- Floors: soft / spongy spots near bath/kitchen/entry
- Cabinets/doors: open/close, check hinges
- Slides: run in/out, check seals and floors

3. Electrical

- 12V & 120V systems: lights, outlets, GFCI
- Converter/inverter operation
- Battery age and connections
- Generator (if equipped): start under load

4. Plumbing & Tanks

- Fresh, gray, black tank valves open/close
- Water pump & city water connection
- Water heater: gas/electric
- Check for leaks under sinks & around toilet

5. Chassis / Tow (if motorized or towable)

- Tires: date code, tread, cracking
- Brakes & lights
- Hitch / 5th wheel / weight distribution setup
- Test drive or tow test completed

6. Documents

- VIN matches title
- Service/maintenance records present
- Appliance manuals & remote controls
- Note defects for negotiation
